

About NAVICP

The Mission of the Naval Inventory Control Point (NAVICP) is to provide program and supply support for the weapons systems that keep our Naval forces mission ready. NAVICP is responsible for over 400,000 items of supply, \$27 billion of inventory and annual sales of \$4.2 billion. It has two locations, one in the Lawndale section of Northeast Philadelphia and the other in Mechanicsburg, just outside Harrisburg, PA.

NAVICP Transformation: Providing Performance, Not Just Parts

Performance Based Logistics (PBLs)

What it is

- ◆ Improved, affordable war fighter support with guaranteed performance
- ◆ Preferred product support strategy by DoN/DoD
- ◆ Innovative approach to logistics support that improves product effectiveness while reducing Total Ownership Cost (TOC)
- ◆ Performance outcome procured vice traditional parts procurement
- ◆ Industry assumes control over traditional Integrated Logistics Support (ILS) responsibilities
- ◆ Long term agreements & partnerships encouraged

Types of PBL Support:

One Size Does Not Fit All

- ◆ Commercial-Off-The-Shelf (COTS)
- ◆ Component
- ◆ Sub-System
- ◆ Partnership
- ◆ Platform
- ◆ Total Life Cycle Systems Management (COTS)

"Improved Readiness at Reduced Costs"

Cost Effective Logistics Solutions

- ◆ Incentive-driven
- ◆ Reliability improvements
- ◆ Cost reductions
- ◆ Material availability & accountability

Assistant Chief of staff (ACOS) Support

NAVICP is the one-stop, point of contact for NAVSUP Acquisition, Industrial and International Logistics customers

ACOS Acquisition

- ◆ Least cost readiness solutions for Weapons Systems/Platforms
- ◆ Improved spares support alignment
- ◆ Enhanced use of Performance Based Logistics agreements

ACOS Industrial

- ◆ Improved material support for Depots
- ◆ Maximize productivity of artisans
- ◆ Reduction in costs and cycle time

ACOS International

- ◆ Pre-LOR
- ◆ Case Development and closure
- ◆ Security cooperation
