10.i	"Option" doesn't print on Option CLINs	4.2	1-Jul-00
11	BOAs/IDIQs	4.2	1-Jul-00

Workaround Exists	Comments
Funding - 62 pos. OK	AMS determining if "See Schedule" is more appropriate
	Funding lines are displayed, by CLIN, not by ACRN
	Changes are displayed by CLIN, not by ACRN
	Fixed already
	Database change reqd
	Fixed already
	Probable productivity enhancement, not likely to be changed
	China Lake has workaround process.
	Continued discussions with DSIC and AMS.
Can accomplish for 1155, SF1449, 1442	AMS must fix for SF26 and any other form
	Fixed already
	AMS providing additional UDFs for NECO testing
	AMS states improvements have been made. Testing at Pax River against OA baseline is essential
Can use alternate form and attach as imported document	AMS suggests save routine to include option to refresh
	Navy to lead focus group to define ALL fields on the form (only some currently defined)
Can use alternate form and attach as imported document	Navy to lead focus group to define ALL fields on the form (only some currently defined)
	Can use Sub CLINs
	Can use Sub CLINs

4.1 contains CLIN template capability.

Final 4.1 release corrects Section J listing, and pulls in DD1423. EDI includes DD254 info, EDA doesn't include attachments. Navy must write up additional requirement for EDA. Final part of Section J issue (name of attachment and date of creation fix) in 4.2, database change. Partial workaround: create additive text, associate with CLIN. This saves text and includes it in EDI (edited text not in EDI). Header and footer removed in 4.1.b.

Technical deficiency - fixed  
AF states they have workaround. Awaiting receipt for testing.

Training Issue

7 SDRs incorporated in this issue. Short Code issue covers multitude of problems, all forms reviewed and dispositioned. DSIC will write up method and publish in Knowledge Base.

Fixed already  
Requirement will be written up by DLA  
AF states they have workaround using Funds Certification Document. AMS requires write up of the requirement. Currently one per Contract Type (56 in all). Will ask user community what is minimum requirement.

Can use additive text

Many previously identified issues.
