<p>The column on the left places the TSPs in sequence of the least expensive rates to the most expensive rates. The TSPs names are replaced w/the number of their placement. E.g. #1 TSP has the lowest rates and # 142 has the highest rates.</p>	4	26	<p>The column on the right places the TSPs in sequence of their Best Value Score (BVS) which included customer input from Customer Satisfaction Surveys (CSS). The 2nd most used TSP outbond from Hawaii is way down the list at number 60 as far as their rates go.
